

Golf Cart Policy

- All golf carts must be electric (fire, environmental and noise reasons).
- Golf carts may not be operated on any trail.
- Golf carts may only be driven by persons over the age of 16.
- Golf carts may not be driven on the beach.
- The cabin number of the owner must be visible on the golf cart.
- Please notify Board if you own a golf cart (sussjeanie@gmail.com).

Golf carts may be driven to the beach area to provide easy access in specific situations where the individual would not otherwise have access to the beach. Such situations may include cases on ongoing need were the individual is disabled, as well as in need of a more limited duration, such as residents or guests needing to transport small children or cumbersome items.

When using a golf cart, it is important to respect the environment, as well as the safety of all Starr Valley residents and guests.
